Your rubbish is your responsibility

In 2024, South Staffordshire spent £90 000 clearing fly-tipped rubbish.

Many people advertising cheap waste removals online go on to fly-tip the rubbish they clear.

Householders must show due diligence about who takes any rubbish from their homes, from excess household waste, to shed clearances and home improvements waste.

If waste from your home is fly-tipped, you can be fined

Be careful who you trust with your rubbish!
